

HIT:The Assassination of Osama Bin Laden forecast 2/24/2011

What I am seeing is I am overseas and I won't even try to guess as to what country I am over – I'd be way off. It does look like a leader, it is very, very possible that it is one that I see on the news all of the time, but to be perfectly honest they all kind of look alike to me because of the turbans, long robes and beards. Anyway, it doesn't look like this man is going to have a good end. I've heard the word assassination a couple of times in regards to this man. And what they are showing me after this incident, *again it is symbolic* – a great big beehive – meaning that there's a bees nest being stirred up. Then they show me because of this incident more than any other incident---THEY want me to repeat this:

BECAUSE OF THIS INCIDENT MORE THAN ANY OTHER INCIDENT –
a whole bunch of *littler* beehives are popping up here and there. All the bees coming out are *really* angry.
