

These are snippets from three different transmissions from THEY. The validations are coming in fast and furious. The full transmissions are available by emailing my friend Celine, who records them and then transcribes them and sends them out to anyone interested in reading them. Her email is [\\_neverendstory@cfl.rr.com\\_](mailto:_neverendstory@cfl.rr.com_) (mailto:neverendstory@cfl.rr.com) In light, CAT

July 21 message: A Storm Brewing

THEY are showing me a storm. THEY are on this storm thing today, and I do feel as though that it is north of Florida, but not coming too close to Florida at all. I do feel that it is north of Florida. So it is.”

Aug 4 message:

The Big Blow\*

I hate to put a name on any of this stuff, but I imagine, it is a storm, and we will leave it at that. It is a storm going up the East Coast. There was a picture that all of us saw in our children’s books of when the wind blew it was this man’s face with his cheeks all puffed out and blowing out. That is the picture that THEY are giving of the big blow. I don’t feel scary with it; I don’t feel afraid. But they are showing me along the coast line.

Validation: 3pm Tuesday August 23: As of this writing Hurricane Irene is a monster storm...now predicted to miss Florida and hit landfall in the Carolinas...but heading up the entire east coast.

August 11 message:

There are two things that I want to start off with that came to me during meditation. The first is the shaking and that happened at approximately 12:05 pm. I felt the shaking quite strong, and that means that there is a good –sized earthquake coming.

Validation: 5.9-magnitude earthquake strikes Virginia. Pentagon evacuated as a precaution. [\\_http://goo.gl/GGcx3\\_](http://goo.gl/GGcx3_) (http://goo.gl/GGcx3)

Early reports from CNN right after the quake:

An earthquake with a preliminary magnitude of 5.9 struck in northern Virginia, the U.S. Geological Survey said Tuesday.

The quake was felt in Washington, D.C., and as far away as North Carolina and New York, witnesses said. While all U.S. Capitol buildings were evacuated, there were no reports of injuries or damage.
