

THEY are right again!

Yes..this is most likely what THEY were warning us about when THEY kept bringing up the broccoli over and over again. I think sometimes we only focus on our own country..(USA) and forget our world is really all ONE too....what happens in one part affects all of us.

From Newsweek, June 13 article by Carl Zimmer - speaking of the strain of E Coli that infected vegetables in Europe:

"Somehow this obscure microbe had turned vicious, triggering one of the biggest if not THE biggest - E coli epidemics in history, with at least 1,730 infections and 18 deaths as of this writing."

Lasso Those Rain Clouds!

Message Validation Updates

On June 11th, The APS reported: "BERLIN – After a month of searching and testing thousands of vegetables, simple detective work trumped science in the hunt for the source of the world's deadliest E. coli outbreak. The culprit: German-grown sprouts. Health officials announced Friday that sprouts from a farm in northern Germany caused the outbreak that has killed 31 people sickened nearly 3,100 and prompted much of Europe to shun vegetables." Pictured here are the sprouts that caused the huge E Coli outbreak.

On June 9th, Aynne found several articles such as the one with the headline: ["Another German Dies in E. Coli Outbreak" in the New York Times. ...interesting, but they never did mention broccoli...I guess that is still coming.](#)

On March 24, 2011, in [Stand in the Pillar of Light](#), we received the message under the heading, [That Darn Broccoli Again: THEY are showing me that broccoli again. Now, as human beings, we](#)

probably wouldn't eat any vegetables from Japan here anyway, but THEY are making a point that something is wrong with the vegetables. And they need to be washed. THEY do not want to drop it; THEY are not dropping it; THEY are bringing it up again.

Aynne writes: Do you suppose they did mean this outbreak and THEY were just using broccoli as an example? In this message, THEY say vegetables....plural...

As early as February 3, 2011, THEY first warned us to wash our vegetables in Walk on Stilts, with the following statements: Broccoli! Broccoli! It sure looks like broccoli. Maybe it is a tree, (ha) but it sure looks like broccoli. It may be an issue coming up here...I really think it is broccoli. Something is wrong with the vegetable, and we are reminded to really wash everything even if we think it is clean. It sure does look like broccoli. It is a green vegetable.

Perhaps this is another Message Validation Update of a different kind: Okay folks, here goes...what do you think?

On June 9th, Aynne writes: I can't help but wonder...On June 2, 2011, In Reach Out; Touch Someone, They shared this about the eclipses...Having 3 in a row is a tad unusual. There are always 2 in a row, but having 3 is a tad unusual. And what THEY are talking about that is: 'what is covered is always uncovered; and what has been hidden will be revealed--and thrice so because of the 3 eclipses. Therefore, there will be 3 things that will be coming up in the very near future that have been concealed and will be revealed.

Was Rep. Weiner was ONE of the three things? What has been concealed will be revealed. He sure did conceal his nonsense for a long time...and it was certainly revealed!

And now for today's Message...

Lasso Those Rain Clouds!

The following is a transcript of a transmission session with THEY held on Thursday, June 9, 2011.

Aynne says: "I am looking at a circle within a circle. It almost looks like a pupil

in an eye. Kind of does...ha, THEY are telling me to focus!

Turned Over Cities

I have no idea what this means: like cities-- buildings turning sideways and then turning back up again; turning sideways and then turning back up again. It is a weird picture; it looks like a science fiction thing that I am looking at. It would go against our laws of gravity what I am looking at.

Star 'Trekkie' Uniform

It looks like a uniform of some kind. It looks tight fitting, form fitting, again; it looks a little spacey---a Science Fiction thing again--kind of star 'trekkie.'

The White Tornado

I am seeing that white tornado that I saw a week or so ago. I cannot remember when it was but it was running around cleaning things up. It is distinctly white again. I don't have any fearful feelings when I look at it. It does seem to be clearing the area where it sets down, it sucks things up; sucks up the negativity. Throws it back into the Universe but it is returned in a different state than it was sucked up in.

These look like pillars and I want to say Grecian or Roman pillars ---that kind of architecture big white pillars.

HOT, Chili Peppers

I want to say that I am looking at Mexico or Central America...they are giving me chili peppers and that is why I am thinking of that area, chili peppers! Mexico, New Mexico...*alright, okay*, Arizona and the fires—more fires, hot, a lot more land being lost, a lot more area being lost to the fire.

Lassoing the Clouds

The visualization is good for bringing the rain here. It wasn't talked about today which I should have done. But the visualization is excellent to bring in the rain clouds. It does take a little inner strength which is like inner connection, and THEY are using our connection to the ALL and the ALL THAT IS, and just simply focusing in on the rain clouds, and bringing them here to Flagler County. What THEY are showing me is just like lassoes. *Lasso them clouds and bring them in.* And I guess that is what our thoughts in a sense will do.

When you visualize, you see rain, you see a gentle rain that lasts for days, gentle rain...golden rain, soft, gentle rain. And the rain has a color, it is gold.

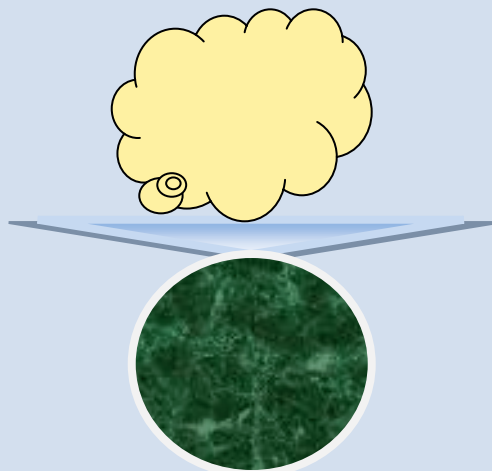

So we need to share this, the visualization of the rain and the rain clouds, and the gold rain.

Pillars of Knowledge

I am now looking at the pillars again. I think it is one of THEY who is standing, nope, leaning, not really standing. I guess the pillars stand for knowledge, what we were talking about today (in class). Strong and firm in their 'beingness' rising from the earth and connecting up to the sky, they are the Pillars of Knowledge. They are steadfast and nothing could shake these things, nothing. I am being smiled at by this member of THEY and I am not even going to try and guess what it means. It is a good thing.

The Order of Melchizedek Symbol

THEY are showing me the symbol for the Sanctuary of the Beloved, The Order of Melchizedek. The top portion of it looks like a White Tornado. See diagram:

I am also being told to lend you a bright orange vest...to wear it when walking or riding your bike!

Session ended.

THEY
